

Business portfolio

Kazakhtelecom JSC's business portfolio includes a full range of telecommunications services and is represented in almost all regions of the Republic of Kazakhstan and abroad.

The Company's services are provided both on the retail market and on the wholesale market of communications services.

In the wholesale market of communications services, the Company provides services in the operating segment, strictly following the norms of effective legislation and the principles of mutually beneficial partnership.

The Company strives to maintain and develop competitive advantage factors — the availability of the necessary number of network resources to connect operator networks and to pass all types of traffic, an extensive telecommunications network built on state-of-the-art digital equipment with high throughput capacity, providing a high-quality and reliable service to operators and their subscribers.

- OPERATOR SERVICES**
- > connection of telecommunications networks and access to inter-network, local, long-distance and international traffic;
 - > Internet access;
 - > provision of line lines for lease;
 - > additional services for laying networks along the cable sewage system;
